Visit to the Arctic Circle

I was the only person to get off the train at 4p.m. at Abisko in the Arctic Circle. The train disappeared into the night. I was alone, in the dark, with the temperature at minus 20°C, as cold as I'd expected it. At that point I thought about giving up this trip and wished I were on my way back home but the train had gone and I could see a hotel ahead.

The girl at reception gave me the key to a "cabin" as the rest of the hotel was closed. I went back outside. I could see by the light from the hotel and found the cabin easily. My hands were frozen as I turned the key in the lock and pushed the door which refused to move. I pushed it harder. I was thinking of breaking a window to prevent myself from freezing to death when I took my hand off the handle and the door opened gently towards me.

After recovering in the warmth of the cabin, which was actually very comfortable, I went outside again. I realized I wasn't completely alone as I saw car headlights on the road nearby. It was a clear evening full of red, green and blue light in the frozen air. It was so beautiful I wanted to write a poem about it but I had no paper. I could only spend ten minutes outside at a time so I went in and out of the cabin to watch the amazing Northern Lights. I only spent three days there. I was sorry I'd booked a ticket on the train to continue my journey so soon.

These days more people travel abroad than ever before and many of us now have the chance to visit all sorts of exotic destinations. Of course, most people have a fantastic time and no major problems. (37) , being in a strange place, a long way from home can be bad (38) our health. There are some things that everyone should know about, so that wherever they are going, they will have a holiday that is memorable for all the right reasons.

If your destination is (39)..... the beaten track, you should talk to your doctor before you set (40) You may need some vaccinations or to take certain medications with you on your trip. The most common disease that travelers suffer from though, is food poisoning. In high risk areas, only drink water that (41) been boiled or sterilized . This includes not having ice in your drinks and using safe water to brush your teeth. When it comes to food, be especially careful with meat and seafood, avoid salads, and never eat any food that is undercooked or served lukewarm, rather than (42) hot.

Accidents can happen anywhere, but people on holiday can be at higher risk, so don't leave your common (43) at home. In cars always wear a seat belt, and on motorbikes never forget your helmet. If you are by the sea or the pool with young children, you need to take extra care. An adult, who is a strong swimmer, should be watching the kids (44) all times. Another holiday danger is the sun. Build up your exposure slowly and stay indoors in the middle of the day, when the sun is at its strongest. When you are outside, wear a hat and always use sunscreen with the right protection factor for your skin.
