Task 6. Reading**/5x2=10/****Read the article and choose the correct answer A,B,C,D, or E.**

23rd December: We have almost reached the Antarctic after two months at sea. Although it is summer here and there are 24 hours of sunshine, it's still freezing and there are huge icebergs everywhere. One of our tasks while we are here is to check the numbers, movement and feeding behavior of the penguin colonies. We do this by capturing them and putting electronic tags on them. We have to be very careful so that no penguin is hurt.

24th December: Today we sang Christmas carols to our new friends. They clapped their flippers to show they liked the singing. We also saw a family of blue whales. They must have heard our singing. What an amazing sight! The whale calves swam alongside their mothers. It was a touching scene and one we shall never forget.

25th December: Happy Christmas! The crew traditionally exchange presents on these expeditions. Some of them were disappointed, though, because their presents were underneath food supplies and other equipment. We had expected to reach the Antarctic research station earlier but recent bad weather has delayed us. Anyway, Christmas dinner was delicious. We had roast turkey and Christmas pudding.

26th December: Today we played games on the deck such as sticking our heads in buckets of freezing water. Thinking about it now, this was crazy and dangerous! Soon we are going to reach our base. Then we can start our research on the penguins. After we have done that, we can begin our albatross project. Checking the weight of albatross chicks is the job of Juan, a biologist from university of Barcelona.

26. Why are they in the Antarctic?.

Travelling advice

These days more people travel abroad than ever before and many of us now have the chance to visit all sorts of exotic destinations. Of course, most people have a fantastic time and no major problems. (37) , being in a strange place, a long way from home can be bad (38) our health. There are some things that everyone should know about, so that wherever they are going, they will have a holiday that is memorable for all the right reasons.

If your destination is (39)..... the beaten track, you should talk to your doctor before you set (40) You may need some vaccinations or to take certain medications with you on your trip. The most common disease that travelers suffer from though, is food poisoning. In high risk areas, only drink water that (41) been boiled or sterilized . This includes not having ice in your drinks and using safe water to brush your teeth. When it comes to food, be especially careful with meat and seafood, avoid salads, and never eat any food that is undercooked or served lukewarm, rather than (42) hot.

Accidents can happen anywhere, but people on holiday can be at higher risk, so don't leave your common (43) at home. In cars always wear a seat belt, and on motorbikes never forget your helmet. If you are by the sea or the pool with young children, you need to take extra care. An adult, who is a strong swimmer, should be watching the kids (44) all times. Another holiday danger is the sun. Build up your exposure slowly and stay indoors in the middle of the day, when the sun is at its strongest. When you are outside, wear a hat and always use sunscreen with the right protection factor for your skin.
