

INVESTMENT PRESENTATION

MCP STARTS NEW BUSINESS

In 2019, we opened a new company to provide car-based collateral loan services in line with the growing demand for cars in Mongolia. Research shows that on average, about 65,000 vehicles are imported into Mongolia every year. It brings vehicle-based collateral loan products that have high market demand at low risk. The microfinance problems faced by car buyers and owners can be solved as quickly by us as a financial kiosk.

During Economical friendly period the demand of the loan was low, and low risk rate, the fulfillment rate of the contract was high.

2020-2022 COVID

Total Return -12%

During the covid-19 pandemic, our company policy was to take more care on our costumers. Discounts on loan interests, agreements of the category of force majeure and stopped accepting new applications.

2022-2023

YEARLY NET INCOME 23%

Right after pandemic, economical situation shows good stats, Not only that, demand of micro-credit has increased dramatically, but it brings high rate of the risk.

CREDIT PRODUCTS AND RISK RATE

We offer two types of products according to the borrower's preferences, loan amount and collateral car.

- 1. Keeping the car in a designated safe place during the contract
- 2. Guarantee for driving car during the contract

Driving car
